Willi reports from the FSR-Kom Meeting on the 12.11.2025

- At its last meeting, the **FSR-Kom** took a positive stance on **three fund releases**. These fund releases will therefore be dealt with in later agenda items at this meeting.

Executive Board Report

- There is new information regarding the **closure of the Frei(t)raum**. Today we received an email from Mr. Otto from University Department 4. He would like to arrange a meeting with us, Ms. Strehl, and Mr. Hesse to discuss the Frei(t)raum.
- The **DGB Campus Office** has invited the StuCo to the opening party on November 25. Anyone interested in attending is welcome to contact us.
- The StuRa was also invited to the networking meeting of the “**Freie Kulturkarawanen Thüringens**” (Free Cultural Caravans of Thuringia).
- The **session materials** now have a linked table of contents with page numbers, as requested at the last meeting.
- A date has now been set for the next meeting of the **Extended Study Committee**, at which the new proposals for the general examination regulations are to be presented. The meeting will take place on December 8, 2025.

Budget Plan 2026_27 (Finances)

Motion Text

Moin,

Attached is the latest draft of the budget for the coming fiscal year 2026_27. I'm submitting it in Willi's absence. Of course, I was solely responsible for preparing it; it wasn't Lucca anymore, yes, yes.

Best regards

Nele

Discussion

- **Niklas** asks why a 13 % increase is now expected for staff. At the last meeting, it was discussed that 7 % would be sufficient.
- **Nele** explains that the 13 % includes not only the staff increases, but also increases in health insurance and VBL. According to our accountant, the standard in the public sector for all these increases combined is 20 % . In the past, we have always calculated with 15 % . Because the staff increases this year are likely to be relatively small, as discussed at the last meeting, we are now calculating with 13 % . She does not want to go any lower than that, as we should still plan for a small buffer.

Nele has also spoken to the teaching department since the last meeting. In order to finance the KoaLa, she has slightly increased the title for BuFaTas. Unfortunately, there is still not much leeway.

- **Nikolai** asks whether we are sticking to the TV-L tariff or whether we are paying more.
- **Willi** says that we are sticking to the tariff.
- **Jannik** from the social affairs department asks whether the budget for the department can be increased to €500, as it is currently set at €0.
- **Nele** explains that some departments had not yet provided feedback. Money was cut from these departments. However, he is welcome to send an email. If she has more feedback, she can reschedule something for all departments.
- **Levke** suggests reducing the budget for the volunteer reception and asks whether Nele has already discussed this with Peter from the Public Relations Department.
- **Nele** says that she has not yet had a chance to talk to Peter about this. However, the budget for major events has already been reduced.
- **Paul Staab** suggests moving the money for the volunteer reception to the title "Major Events." This money could then be used to finance either the volunteer reception or other events.
- **Nele** agrees that this would be a possibility.
- **Levke** explains that she has already spoken to Peter about the possibility of external funding for the volunteer reception.
- **Nele** asks whether we want to cut major events entirely or not.
- There is no response.

- **Willi** explains that John, Nikolai, and Robert have submitted an amendment. They want to reduce the budget for ALOTA (Alternative Orientation Days) from € 1 000 to € 0.
- **Nikolai** justifies the amendment: He already criticized ALOTA at the last meeting and asked how they select their events. He therefore wrote an email to ALOTA asking for an answer to this question. At this point in time, there is still no answer. John, Nikolai, and Robert therefore looked online themselves to see what was happening within the framework of ALOTA. He believes that there is a clear political orientation, which is why he sees ALOTA as political indoctrination rather than political education. He proposes a collective fund for various alternative orientation events.
- **Paul Staab** thinks that Nikolai has a very narrow definition of political education. He also asks what other alternative orientation events there are that should be funded with the money.
- **Levke** asks when they sent the email to ALOTA. If the email was only sent two days ago, a response cannot be expected at such short notice. She also believes that Nikolai has a misconception of the duty of neutrality. All MoStuCo members were elected to the StuCo for their political views and represent these here. ALOTA is a regular event and the only event that has applied to the StuCo for funding for political education.
- **Niklas** wonders who said that political events are bad. He also does not understand why we are being criticized for spending more money than we earn. We are not allowed to build up reserves. That is why it is even necessary that we do not earn more than we spend.
- **Nikolai** refers to Levke's speech. He never mentioned any obligation to remain neutral. The email to ALOTA was sent out about 5 days ago.

He believes it is possible that other events will also want to apply for funding for orientation days in the future. That is why he continues to advocate for a budget item for all alternative orientation events.

He continues to criticize the fact that we spend € 1.50 for every euro we earn.
- **Willi** explains that, in principle, we should of course end up with € 0. However, the ThürStudFVO is stronger and states that we must reduce reserves if we have built them up. So we are currently obliged to spend more money than we earn.
- **John** asks where the reserves are listed.
- **Levke** responds to Nikolai's statement that he was referring to the Court of Auditors. This report explicitly states that we should reduce our reserves. It also stipulates that the semester fee should increase once the reserves have been reduced.
- **Paul Staab** adds that the Court of Auditors' report is generally difficult. Furthermore, budgets are never exactly accurate, which is why reserves build up and then have to be reduced at some point. This is completely normal and cannot be avoided. In his opinion, the budget is not really failing because of ALOTA.
- **Nikolai** understands that reserves have to be reduced. However, he does not think the ALOTA is open enough to everyone, which is why he would like to remove the title.
- **Paul Staab** adds that just because we have an "ALOTA pot", that does not mean that John or Nikolai cannot apply for money from it for other orientation events. He thinks it is important that we support the introduction to studies through projects such as the ALOTA.
- **Niklas**, as head of the department of internal affairs, corrects some of Nikolai's mistakes. The

requirement to balance income and expenditure is laid down in the constitution, not in the order of the StuCo. Furthermore, the ThürStudFVO states that we may not have more than 20 % free reserves and no more than 5 % each in operating reserves and earmarked reserves. We currently have more reserves than that, so we are obliged to reduce them. In addition, we do not spend €1.50 for every euro we take in, but €1.40.

IOTA 04 → 04 | 19:24 | Discussion & Decision: Expense Allowances (Willi Kröning)

Motion Text

Dear MoStuCo,

As I did a year ago, I am submitting all expense allowances at once. I have again based my calculations on the previous values. Since Nele was otherwise engaged for almost the entire month of October, I am only applying for her AE from November onwards. The unequal distribution of expense allowances for coordinating the Market of Opportunities is due to the equally unequal distribution of work, as I have observed. For Niklas, I would simply like to move away from the expense allowance decided two years ago in order to have releases of funds for all expense allowances.

Trust Persons (Executive Board)

Motion Text

Hello everyone,

As announced at the last meeting, we want to fill the positions of trust persons again. We introduced this concept during the last term of office, and it has proven to be very helpful and valuable. That is why we would like to fill these positions again.

Best regards,
The Executive Board

Discussion

- **Klara** presents the motion. Since the agenda item was already on the agenda at the last meetings and hardly anyone wanted to be a representative, she has a new idea. She would like to fill the representative positions with one person from the StuCo, one person from the FSR-Kom or an FSR, and one person from the departments. This means that for every conflict, there are potentially both external and internal people who can help. She would like to send a circular email to the FSRe and departments and postpone the agenda item in the StuRa once again.
- **Marcus** thinks it's a good idea.

Nominations for the Administrative Board (Executive Board)

Motion Text

Hello everyone,

As discussed at the last meeting, we want to propose candidates for the Administration Board of the Studierendenwerk. We have received three applications (as of November 13). Since the application deadline is November 17, we will forward any applications received after that date to you immediately.

You can find the applications in the non-public meeting materials.

Best regards

The Executive Board

Discussion

- **Klara** presents the motion.
- **Paul Staab** explains that two positions on the StuWe administrative board are currently already filled by people from the FSU. It therefore probably does not matter in which order we propose the candidates, as they are likely only to be considered as substitutes. Furthermore, we do not need to propose all three individuals, as one person is already on the Administrative Board and does not need to be reappointed.
- There are no further questions.

IOTA 07 → 07 | 19:42 | Discussion & Decision: Release of Funds M-STURA-020-2025_26 – Expense Allowance provisional Executive Board Marcus Hansen (Anne Kaufmann)

Motion Text

Dear MdStuRa,

I hereby submit an expense allowance for Marcus Hansen as acting chair. Since Marcus and Klara were still acting as acting chairs in the first few days of October, they represented the student body together during this time. This included the welcome event for first-semester students as well as everyday tasks in the office. It should not be forgotten that the STET took place during this period, which, in my experience, can lead to an increased workload, especially during these days. I calculated the € 85 as follows: Each board member receives a monthly expense allowance of € 500. Since October had 30 days, this results in a daily rate of € 16.66. Marcus was a board member until the StuRa meeting on October 5 and then handed over to Chiara. That's why I came up with € 83.33 and rounded it up to € 85.

I hope that clarifies all questions.

Best regards,

Anne

Discussion

- **Niklas** presents the motion on behalf of Anne, who is unable to attend. It is customary to also grant AEs for temporary positions. The calculation can be found in the text of the motion.
- **Levke** approves of the motion. However, she cannot recall AEs ever being granted for temporary board members in the past.
- **Marcus** explains that it was also common practice in the past.
- **Willi** agrees with Marcus. He did the same thing last year, but only for one person, so it may have been overlooked.

Draft Resolution: The Student Council of the FSU Jena approves the release of funds M-STURA-020-2025_26 and thus a one-time expense allowance of € 85 for Marcus Hansen in his capacity as acting CEO from October 1 to October 5, 2025.

Motion Text

Hey there,

New person on the finance team, new AE funding approval.

Best regards,
Willi

Discussion

- **Willi** presents the motion. At the last meeting, we elected Tom as deputy treasurer. He should now also receive an AE.
- No questions

Draft Resolution: The Student Council of the FSU Jena approves the release of funds M-STURA-021-2025_26 in the amount of €1575 and thus a monthly expense allowance of €150 for Tom Daubmann as deputy treasurer of the StuRa from December 2025 until the end of his term of office, at the latest until September 2026 inclusive, as well as a one-time expense allowance of €75 for November 2025.

IOTA 09 → 09 | 19:46 | Discussion & Decision: Release of Funds M-KOM-005-2025_26 – BuFaTa KIF 53,5 (FSR Info)

Motion Text

The FSR Informatics would like to participate in the conference of the computer science student department councils together with the FSR Bioinformatics and has submitted a request for reimbursement of the costs. The request itself and a breakdown of the expenses can be found in the attachment.

Discussion

- **Niklas** presents the motion. The BuFaTa is further away, which is why it is slightly more expensive. In addition, a partnership has been formed with Bioinformatics, as they do not have their own BuFaTa.
- No questions

Hannah is leaving the session at 19:46.

Draft Resolution: The Student Council of the FSU Jena approves the release of funds M-KOM-005-2025_26 in the amount of €690 from budget item A.01.35 20-cent pot (FSR-Kom) for the participation of the FSR Informatics and FSR Bioinformatics in the BuFaTa KIF 53.5 from November 25 to November 30, 2025.

IOTA 10 → 10 | 19:48 | Discussion & Decision: Release of Funds M-KOM-096-2025_26 – BuFaTa SoSe 24 (FSR WiWi)

Motion Text

The FSR WiWi was at BuFaTa in Dortmund in May 2024. They had already submitted a request for funding in February 2024. The FSR-Kom issued a positive opinion (15/0/1) on February 14, 2024. However, it was initially rejected by the StuRa on March 12, 2024 (2/3/4), then resubmitted and approved on March 19, 2024 (11/1/1). A positive review by the finance department was also available, so the FSR attended the BuFaTa. In September 2024 (i.e., after the BuFaTa), a complaint was lodged with the arbitration commission because the StuRa did not issue a new opinion when the proposal was resubmitted. The arbitration commission therefore overturned the decision a few weeks ago. To ensure that the members of the FSR are not left to bear the costs, the release of funds has now been resubmitted. A positive statement by the Kom was issued on November 12, 2025, with 22/0/0.

Discussion

- **Willi** presents the motion. We want to achieve a cure.
- **Maurice** asks why the motion was submitted for € 700 when € 700 was not spent.
- **Willi** explains that originally four people wanted to go, but only three went. The original request was simply resubmitted unchanged. It is possible to spend less money than was requested.
- **Maurice** asks what happens to the money that was not spent.
- **Willi** explains that the money goes back into the FSR-Kom pot and is available there again.

Draft Resolution: The Student Council of the FSU Jena approves the release of funds M-KOM-096-2023_24 in the amount of € 700 from budget item A.01.35 20-cent pot (FSR-Kom) for the participation of the FSR Economics in the BuFaTa Dortmund from May 9 to May 12, 2024.

M-KOM-007-2025_26 – FSR Christmas market (FSR Medicine)

Motion Text

As you may have noticed, a Christmas market will take place on December 6, 2025, at Ernst-Abbe-Platz/Carl-Zeiss-Str. 3.

Of course, many purchases, such as food, need to be financed. To ensure that the FSRe participants are not left to foot the bill, they need a release of funds in which the total costs are covered by the FSR-Kom or the 20-cent pot.

The details and more specific information about the event are attached.

Discussion

- **Willi** presents the motion.
- **Levke** adds that the StuRa can also run a stand. She would really like that. Unfortunately, there was little support for her and Klara at the Krautgassenfest, so neither of them wants to be primarily responsible for a stand at the Christmas market.
- **Niklas** has problems with the release of funds because the financial plan is not detailed enough.
- **Nele** explains that this is not the final version of the financial plan. Feedback from some FSRe is currently still awaited. This will then be incorporated into the financial plan.
- **John** returns to the topic of a possible StuCo stand. He asks what kind of stand it would be.
- **Klara** says that there is currently no concrete plan. Therefore, anything is possible. A tea stand like the one at the Krautgassenfest could be set up again. However, other ideas are also welcome.
- **Nikolai** would be willing to help run a stand. He asks who he should contact about this.
- **Nele** explains that no one has been assigned responsibility for this yet. Ideas can simply be submitted and a stand can be organized.
- **Willi** adds that there is also a list of ideas from the Medical Student Department Council, but there is hardly anything left on it because many stands have already been registered.
- **Niklas** returns to the actual release of funds. As long as the new financial plan is not yet final, he does not want to approve the release of funds. It is unclear what the money is to be used for. He also cannot fully understand the estimates for the number of guests and the income.
- **Levke** asks whether there are examples of student councils that have already planned their financing.
- **Marcus** explains that two stands will offer mulled wine. At least €70 is to be spent on mulled wine at each stand.
- **Willi** adds that all FSRs currently have to justify why they need the money.
- **Nikolai** thinks the event is good, but also has concerns about the financial plan. He asks whether the financial plans are guaranteed to be submitted later.
- **Nele** explains that the funds were only approved under this explicit condition.
- **Marcus** says that, in his opinion, the release of funds should be approved today, and if they

are not used as intended, a veto can be cast.

- **John** asks whether there is an option to veto.
- **Marcus** says that this is certainly possible, but not ideal.
- **Paul Staab** explains in more detail that it is very difficult to reverse the decision once the money has been spent. He also asks where the condition is recorded in writing, as it is missing from the meeting materials.
- **Nele** explains that the release of funds was only reviewed a day ago. That is why the condition is not included in the meeting materials. However, it is noted in writing (including signature and stamp) in the physical release of funds and has also been communicated to the relevant FSRe.
- **Götz** asks whether we are under pressure to make a decision.
- **Levke** believes that it would be important for planning purposes to make the decision at this meeting.
- **Nele** agrees with her. If we wait until three days before to approve the funds, it will be almost impossible to make the expenditures in time.
- **Nikolai** asks whether we can finance mulled wine.
- **Marcus** explains that it is possible to buy alcohol as long as we sell it.
- **Willi** has found the list of stands that have already been planned and presents it.
